DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 26, 2007 has been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Richard J. Botos on June 22, 2007.

Claims 1, 10 through 13, 15 and 16 are pending.

The application has been amended as follows.

Claims 1, 10 and 13 have been amended as follows.

In Claim 1, the phrase --after patterning,-- has been added before "depositing piezoelectric" (line 6); the phrase of "the spaced" (line 14) has been replaced with --a spaced--; and "said electrodes" (line 15) has been replaced with --said spaced part electrodes--.

In Claim 10, "comprising at least" (line 2) has been changed to --consisting of--.

Art Unit: 3729

In Claim 13, the phrase of –and patterning—has been added before “a first” (line 3); the term –patterned—has been added before “first metal” (line 4); the phrase of “the spaced” (line 11) has been replaced with –a spaced--; and the phrase of –spaced apart—has been added before “electrodes” (line 12).

Reasons for Allowance

3. The following is an examiner’s statement of reasons for allowance.

The prior art does not teach all of the limitations of the claimed invention including depositing a first metal film directly on a substrate, patterning the first metal film and then subsequently depositing piezoelectric material on the first metal film after the first metal film has been patterned (as recited in each of Claims 1 and 13).

A telephone interview on June 22, 2007 that occurred between the applicant(s) attorney, Mr. Richard J. Botos, and the examiner, the discussion of which is fully incorporated by reference herein, emphasizes specifically how the claims distinguish over the prior art.

Accordingly, Claims 1, 10 through 13, 15 and 16 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
